PROFILE

Full-stack software engineer and AWS-certified solutions architect specializing in modern TypeScript, Next.js/React, and Node.js web applications.

Proven experience designing end-to-end cloud solutions, architecting relational database schemas in PostgreSQL, and deploying scalable AWS infrastructure from concept to production. Combines technical execution with background in project management and client consulting to deliver performant, user-centered software.

SKILLS

TypeScript, JavaScript, React, Next.js, Node.js, Express.js, HTML5, CSS3, SCSS, PostgreSQL, MySQL, AWS (Amplify, S3, RDS), RESTful APIs, OAuth 2.0, Git, Figma, Photoshop, Illustrator, and XD.

CERTIFICATIONS

- AWS Certified CloudOps Engineer Associate (Dec 2025)
- AWS Certified Developer Associate (Sept 2025)
- AWS Certified Solutions Architect Associate (June 2025)

SELECTED EXPERIENCE

Freelance Software Developer | Zidgy Road Labs

SEPT 2023 – PRESENT, TORONTO, ON

- Architected and delivered production full-stack web applications for commercial clients using Next.js, React, TypeScript, and SCSS.
- Designed relational schemas and queries in PostgreSQL/MySQL, configuring data models and RESTful API endpoints.
- Provisioned scalable AWS cloud infrastructure utilizing Amplify, S3, RDS, and CloudFront for low-latency asset delivery.

UI/UX Designer, Project Manager | LookingList Personals

FEB 2019 – MAY 2023, TORONTO, ON

- Led UI/UX architecture, wireframing, and interactive prototyping for mobile-first web and native app flows using Figma and Adobe XD.
- Managed cross-functional agile sprints, directing external software subcontractors and coordinating sprint deliverables.
- Defined QA test suites and release criteria covering user authentication flows, API integrations, and cross-platform UI responsiveness.

EDUCATION

BrainStation | Diploma, Software Engineering

JUN – SEPT 2023, TORONTO, ON

Coventry / Trinity International | TESOL / CERT TESOL

APR – JUN 2009, TORONTO, ON

McMaster University | Bachelor of Arts, English Literature

SEPT 2003 – APR 2009, HAMILTON, ON

PROJECTS

Full Stack Therapy Clinic Web Platform | Zenpaththerapy.com

TypeScript, Next.js, PostGreSQL, AWS Amplify, Cloudflare

- Engineered a responsive full-stack platform using Next.js, TypeScript, and modular SCSS, integrating a relational PostgreSQL database.
- Configured edge caching and custom domain routing via Cloudflare and AWS Amplify, achieving optimal Core Web Vitals and load times.
- Implemented patient intake workflows and Google Analytics tracking for clinical conversion funnels and Jane App telemetry

Commercial Portfolio & Headless CMS | Amithamakeupartist.com

React / Next.js, Node.js, Express.js, MySQL, AWS S3, AWS RDS

- Developed an interactive commercial portfolio featuring a custom administrative CMS for dynamic service and gallery management.
- Built secure asset upload pipelines using AWS S3 presigned URLs, decoupling image storage from the application backend.
- Designed reusable gallery components with lightbox modal navigation, optimized for mobile responsiveness and fast image rendering.
